FATAL GAS EXPLOSION

Eight Persons Meet Death in Fire At Natchez, Miss.

SIX WOMEN AMONG VICTIMS

Many Thousands of Dollars' Worth of Property Destroyed—Fire Spread to Eighteen Residences, Seven of Which Were Burned—Under Martial Law.

Natchez, Miss., March 17.—Eight persons are dead, another is badly injured and property valued at many thousand dollars is a mass of wreckage as the result of an explosion of gas in the basement of the five-story building occupied by the Natchez Drug company and located at the corner of Main and North Union streets, in the heart of the business section.

The explosion tore away the rear wall of the building, which, in falling, crushed an adjoining tenement building.

Immediately following the explosion the wreckage caught fire, a stiff wind which was blowing at the time carried huge sparks to the north and west, setting fire to eighteen residences, seven of which were destroyed.

City Under Martial Law.

All business has been suspended, and the city placed under martial law, with the two local companies of militia on duty.

The Natchez Drug company's building was formerly the Temple opera house and Masonic temple, and was purchased and remodeled by the firm four years ago.

The shock caused by the first explosion followed in close succession, the latter being accounted for by the presence of oils and chemicals in the building. The north wall fell with the first explosion, crushing two adjoining buildings as though they were eggshells.

WAS TIRED OF LIFE.

Fifteen-Year-Old Girl Shoots Herself Through the Heart.

Trenton, N. J., March 17.—Margaret Borden, fifteen years of age, a daughter of Harry L. Borden, shot herself in the heart Sunday night as the result of grief.

Three causes are assigned for her act—the objection of her father to a young man who had been calling upon her; worry, because her mother was dying of consumption and disappointment over the placing of her two sisters in charge of her uncle in Atlantic City, forerunner to attend to the household duties.

"I am tired of it all," she said, just before entering her room and firing the shot.

Pencil Cut from His Body.

Rhineland, Wis., March 17.—A lead pencil 7 inches long has been removed from the body of August Peterson, who was operated on at a local hospital. Peterson swallowed the pencil while playing cards and keeping score Christmas day. The pencil passed through his intestines and into the colon, whence the surgeons removed it. He suffered much pain, but was able to attend to his work. The pencil still carried the brass-tipped rubber eraser, and not even the point had been broken.

Paralysis Strikes Thaw's Mother.
Pittsburg, Pa., March 17.—Mrs. William Thaw, mother of Harry K. Thaw, has finally broken down under the intense strain of fighting for her son's life. A dispatch from Pittsburg says that Mrs. Thaw has suffered total paralysis of her left arm and that her relatives are greatly concerned about her condition. The patient has been ordered to Florida by her physician, and she will leave Pittsburg shortly.

Emperor Francis Joseph Doing Well.
Vienna, March 17.—Emperor Francis Joseph, who has been confined to his rooms in Schœnbrunn castle for several days suffering from a cold in the head, passed a satisfactory night. There was no fever. A doctor attempted to enter the imperial gardens but was arrested by the guards and removed to an asylum.

GIRLS SAVED FROM FLAMES.

Coolness of Elevator Boy Prevented Probable Loss of Life.

New York, March 17.—One hundred girl employees of the candy factory of Arthur Essing were at work on the fourth floor Saturday when fire was discovered at the bottom of the elevator shaft, preventing their escape by the stairways.

While some of the male employees fought the fire, Henry Coch, the elevator boy, ran his elevator up to the floor and said to the girls, in as cool a manner as he could assume:

"There is a fire in the basement. Maybe you had better let me take you down."

Reassured by his coolness, the girls were saved from panic, and Coch took five elevator loads of them to the first floor before the flames reached such a height in the elevator well that he was compelled to abandon the car. On his last trip the fire burst into the car and burned his hands.

The girls who were not taken out by Coch took to the roof and the fire escapes, and reached the ground in safety.

The fire consumed tons of candy, and the firemen were hampered by the dense smoke from it and by the bursting of five lengths of hose under high pressure. Traffic on the Second avenue elevated road was stopped, and the firemen fought the fire from that structure.

The factory, a five-story structure, was practically destroyed.

A DOUBLE SUICIDE.

Husband and Wife at Dyersburg Take Their Lives.

Memphis, Tenn., March 17.—A special to the News-Scimitar from Dyersburg, Tenn., says that James R. Harrison and Mrs. Ora Ferguson Harrison are both dead at this place by their own hands.

The couple were married two weeks ago.

Mrs. Harrison, who before marriage was a Miss Ora Ferguson, of Dyersburg, on Thursday last shot herself through the lung. No cause was assigned for her act. Her husband was so overcome by her death that he took prussic acid which caused his death.

A brother of the husband, W. J. Harrison, who was present at the death of Mrs. Harrison, had a desperate struggle with the suicide in his efforts to wrest the phial of acid from him, but was unsuccessful.

FOR CARICATURED CZAR.

Clever Cartoonist Sentenced to Long Exile in the Silver Mines.

St. Petersburg, March 17.—For caricaturing the czar, a clever young cartoonist, Fritz Muller, has been sent to Siberia for fifteen years' penal servitude in the silver mines. Muller is the son of a prominent merchant in Munich, Bavaria, and was known as a talented artist in that city and in Berlin.

A few years ago he went to St. Petersburg, where he won fame as cartoonist on a comic paper. A nihilist paper afterward commissioned him to draw cartoons, and it was for this paper that he did the caricature of the czar, and also a cartoon ridiculing the Russian government, for which the terrible sentence of Siberian exile was passed upon him.

Immigrants Refused Passage.

Philadelphia, Pa., March 17.—Secretary of Commerce and Labor Oscar S. Straus, who was in this city Sunday, in an interview on the immigration question said that more than 65,000 applications for passage to the United States were rejected at the agencies of the several steamship lines in European cities during the last fiscal year for fear that the character of the applicants was such that the steamship authorities of this country to take them back to the port whence they would sail to this country.

Found Dead on His Wagon.

Camilla, Ga., March 17.—John Goodwin, a farmer, living near Marietta, was found dead on his loaded wagon of fertilizer, which Mr. Goodwin had purchased. His death is supposed to have been due to heart failure. Mr. Goodwin is survived by a wife and several children.

HE TELLS LIFE STORY

Unfrocked Pastor Who Eloped With Girl of Tender Years.

NOW IN SAN FRANCISCO, CAL.

Jere Knode Cooke, Former Pastor of St. George's Church, Hempstead, L. I., Relates His Experiences—Gave Up All for Sake of Young Girl.

San Francisco, Cal., March 17.—Jere Knode Cooke, the unfrocked pastor of St. George's church, Hempstead, L. I., who eloped about a year ago with Floretta Whaley, and who, under the name of "Balcolm" is now occupying a flat on the outskirts of this city, with the girl and her babe, tells the following story of his life:

Promise to Enter Ministry.

"My parents died when I was very young, but young as I was, I remember distinctly my mother making me promise to enter the ministry. As I grew older the calling appealed to me more and more and I decided to enter the church. I was adopted by a man named Cooke, whom I look upon as an uncle, and attended the public schools. When I was sixteen years of age I was apprenticed to a painter and decorator, and there I learned the trade which I am now following. The little I earned I saved and eventually had enough to allow me to enter Yale. Life was an uphill struggle then. I had to work my way through college and on graduating was appointed curate of a church in Baltimore.

"While there I met and married the woman the law calls my wife. There I made by first big mistake. Physical reasons forbade her marrying, and when, three days after our wedding, she coldly informed me that she had married me simply as a stepping stone to social station and that she saw in me one who was going to rise, I recognized the bitterness of my lot.

"From Baltimore I was appointed rector of St. George's church, in the city of Hempstead, L. I. The position was a good one, and one that highly pleased my wife. She had there an opportunity to further her social aims, and it was pleasing to me also, inasmuch as it was in accordance with my personal ambition to succeed.

Met Floretta Whaley.

"As rector of St. George's I met Floretta Whaley. She was a mere child then, and grew up under my eyes. I always regarded her as a child until one day I awoke to the fact that she was a woman and that I loved her. At this stage I might say that, though sixteen years old, Floretta Whaley was one of the type that matures early. Her orphan life and surroundings had made her remarkably precocious, even as a child, and at eighteen she was in her womanhood. I say this in the face of the criticism heaped on me in regard to eloping with one so young.

"I wish it to be remembered that at this time I was at the height of my success. The near future promised for me all the sacredotal world had to offer. I threw aside everything, and took the girl.

"I knew exactly what the payment would be. I knew the storm that would follow. I knew I became a criminal—I knew it all; and I did it.

Western People Helped Him.

"Here in San Francisco I learned the difference between the East and the West. In the East I would have been stoned and put in prison; in the West, people came to my aid to help me out. They understood that I had only one course to pursue and that was to stick to the mother of my child. I expected a bounding, and instead, I received nothing but kindness and offers.

"And now all I ask is to be allowed to live my life, not as Jere Knode Cooke, the unfrocked pastor of St. George's church, but as Jere Balcolm, painter and decorator, who draws a week's wages for a week's work."

Many People Are Idle.

Providence, R. I., March 17.—The police of this city, who early last week started to take a census of the unemployed people, have completed their work, the list showing a total of 8,445 idle persons in the city.

RAIDS ON NEGRO DIVES.

New Orleans Police Busy Looking After Suspicious Characters.

New Orleans, La., March 17.—Following a murder and several attempts at highway robbery by negro desperadoes here Saturday, the police raided many of the dives and saloons frequented by members of that race.

At one saloon alone 105 negroes were found in the building, and all of them were placed under arrest.

In a raid on a Fulton street barrel house, Robert Johnson, one of a crowd of negroes in the place, knocked down a detective and started to run. He was fired on by Special Officer Well and fell, fatally wounded.

The series of holdups, robberies and murders which have been perpetrated by negroes during the past few weeks culminating in the holdup and murder of James Williams and Robert Bonner, negroes, has forced the police to resort to strenuous measures in ridding the city of the bad negro element responsible for the crimes.

SUICIDED ON TRAIN.

Well Known Chattanooga Ends His Life.

Chattanooga, Tenn., March 17.—James Johnson, capitalist and politician of this city, Sunday night committed suicide by cutting his throat on an Alabama Great Southern train between this city and Birmingham.

During the night he took an overdose of strychnine, but next morning he was so far recovered that he continued his journey homeward.

When the train was between White and Caldwell, Ala., Mr. Johnson left his wife and went to the lavatory. In a few minutes he was found with his throat cut, the jugular vein being severed by a small pocket knife. He was carried to his seat in the coach, and within five minutes he died in his wife's arms.

Mr. Johnson was president of the Forest Hill Cemetery company, and was a large holder of realty in this city. His affairs are in excellent condition and no cause can be assigned for the deed.

FEDERAL JUDGE DEAD.

Judge Clark Was Appointed by President Cleveland in 1894.

Chattanooga, Tenn., March 17.—Federal Judge C. D. Clark, of the United States district court, died at Erlanger hospital at 9:30 o'clock Saturday morning, aged sixty-one years. His death was due to Bright's disease, complicated with tuberculosis.

Judge Clark was appointed to the federal bench December 17, 1894, by President Cleveland. He was brought home from Asheville Friday night, the trip telling on him greatly. Immediately after being placed in the hospital he began sinking. He leaves a wife.

Attempt to Burn Barn.

Lexington, Ky., March 17.—Night riders made an attempt early Monday to burn the tobacco barn of Judge Lewis Apperson at Sideview, Montgomery county. A blaze was started in two places but the fire was discovered and extinguished. Bottles filled with coal oil were found and tracks of men discovered. Bloodhounds were sent for and placed on the track. Telephone wires in the vicinity were cut. Apperson is a member of the law and order league.

Lawyer Hummel To Be Released.

New York, March 17.—Abraham H. Hummel, the lawyer, who is serving a term on Blackwell's island for subornation of perjury in connection with the famous Judge-Morse divorce case, will be released Thursday. Hummel began serving his year's sentence May last, but had his sentence reduced on account of good behavior. It is said the lawyer wanted to sail for Europe immediately after his release.

Irish Society Makes Protest.

New Haven, Conn., March 17.—Delegates of the United Irish society of Connecticut, representing 15,000 people met here Tuesday night and registered a protest against the ratification of the proposed arbitration treaty between the United States and England. The resolutions of protest will be sent to the Connecticut congress, dated Wednesday.

FLOODS IN THE WEST

Heavy Rains Cause Serious Damage on Pacific Coast.

RIVERS ROARING TORRENTS

Several Towns Are Facing Serious Conditions, Railroad Tracks Are Under Water, Bridges Washed Away and Families Seeking Safety.

Portland, Ore., March 17.—Not in many a year have so many points in the Pacific northwest, all at the same time, faced such serious damage from flood as they do today.

From last Friday until now, heavy rains have fallen over the whole of the northwest, and every rivulet is a roaring torrent and every river a lake.

Bridges have been washed out or dynamited, railroad tracks are under water and when traffic is not delayed by these disasters, huge landslides block the way.

Caused Wholesale Destruction.

The most serious reports come from Walla Walla. Mill creek, which flows through that city, nearly every winter goes on a rampage, but at present it is outgirding previous records and has caused wholesale destruction of business in general and destroying several houses.

Next in point of seriousness is the situation at Pendleton. Although the levees built after last year's floods are still holding, there is fear that they are becoming undermined. In that case the town will suffer serious damage.

In Lewiston, Idaho county, railroad tracks are reported under water, bridges washed out, and fears are entertained that the waterworks which supply that city with water, will be flooded, and the supply of drinking water shut off. Many families have been driven from the lowlands.

The Touchet and Patit rivers have washed out the city dyke at Dayton, Wash.

In western Washington rivers are unsettled, and the streams are still rising, but little damage has resulted so far.

Train Service at Standstill.

Train service in the neighborhood of Walla Walla and from Lewiston northward is at a standstill.

The prospects are that conditions throughout the three states will be worse instead of better.

According to the last forecast, a new storm, which made its appearance off Vancouver island Sunday morning, is now moving across the Pacific northwest, and will cause general rains all throughout the district.

DROVE HER CRAZY.

Thunder Storm Had Peculiar Effect Upon This Woman.

New York, March 17.—Recalled by a thunderstorm Sunday night, vivid memories of the shock she sustained last summer when her husband was killed by a lightning bolt and she was stricken unconscious, caused Mrs. Lizzie Dickson, a nurse employed in a Harlem family, to lose her reason and attempt suicide by throwing herself from a window.

When Mrs. Dickson saw the lightning flashes accompanying the storm, she became violent, tore pictures from the wall, attempted to demolish the furniture and was with difficulty restrained by members of the family from throwing herself to the pavement. She was removed to the observation ward at Bellevue.

Reports Show Decrease.

Halifax, N. B., March 17.—The report of the mines department for the fiscal year 1907, just submitted to the legislature, shows a decrease in the coal production of Nova Scotia of 125,945 tons from the previous year. The total production for the year was 5,730,645 tons.

Plaster Quarries Shut Down.

Hopewell Hill, N. B., March 17.—The plaster quarries of the Albert manufacturing company in Hillsboro have suspended operations for two months. The temporary shut down is necessitated by the fullness of the American markets.

FIRST DAY'S SESSION OF THE LEAGUERS

Many Delegates From Every Section of Florida Were There.

MEETING A GRAND SUCCESS.

It Was Almost a Love Feast of Those Who Participated, As They Felt They Were Here in the Cause of God and Community—Today's Program.

With a large number of delegates, gentlemen and ladies, preachers and laymen, in attendance, the first annual session of the Florida Anti-Saloon League, of which Rev. W. R. Lambert of this city is president, was called to order at the Tabernacle Tuesday evening at 7:30 o'clock—and it was one of the happiest moments in the lives of many people. The big Tabernacle even seemed to quiver with delight and satisfaction, as the sweet songs and eloquent pleas in behalf of temperance and the abolition of the saloon from the land were raised to the large audience present. There were delegates present from the most important to the most remote sections of the State, and the first meeting of the first session was a grand union and love-feast among them, many of whom had been formerly acquainted, and many whom many had never seen before; but there were no formalities, and it did not require long for everyone to feel perfectly at home, after the meeting had been well oiled with the spirit of enthusiasm.

The convention was opened with devotional exercises, conducted by Rev. Thos. P. Hay, of the First Presbyterian church. This was followed by an address of welcome by Hon. Christopher Matheson, representing Mayor W. R. Thomas, who is suffering from throat trouble. Mr. Matheson stated that he believed that this meeting was one of the Godsends which had fallen to Gainesville, which he deemed not only the best interior city of the State, but the very best, morally and otherwise. He told of the great blessing and benefit to the city and its people the driving out of the saloons had worked for Gainesville, and thanked God for the change. He felt sure that never again would the people of Gainesville and this community be cursed with the presence of saloons, the sin and obscenity of which could not be fully realized until after they had gone. We are living in a clean, moral, Christian, God-fearing town now, which was a blessing to every man, woman and child in it, whether they realize it or not.

As the most impressive evidence of the benefit derived from prohibition, it is cited that the records of the city tax assessor show an increase in valuation four years prior to the time saloons were abolished to be \$30,000, while the increase in valuation for the four years succeeding was \$380,000. From this increase one may judge whether the saloon is a benefit or a detriment to a community.

Rev. W. A. Hobson, D. D., of Jacksonville, responded to Mr. Matheson's address in a clever, entertaining and impressive manner.

After greetings from church and temperance organizations, the convention adjourned until Wednesday morning at 10 o'clock.

RICH GOLD STRIKE.

May Prove Richer Than Cripple Creek or Goldfield Finds.

San Diego, March 17.—Never in the history of this city has excitement been so great as when it became generally known that within 35 miles there lie beds of gold ore which export mining men declare will prove richer than anything Cripple Creek or Goldfield uncovered.

The rush to the scene of the strike in the southern extremity of the Cuyamaca range of mountains, 2½ miles from the Mexican line, assumed great proportions.

Hundreds of men out of work started on foot for the new camp and scores of others gave up work here and paid fancy prices for horses and wagons to get on the ground in the quickest possible time.

Companies are being formed here to work locations which have been staked out in the last few days, and San Diego has taken on all the appearances of a mining center, where a century or more mining has been the least thought of and least discussed business.

Old residents are recalling the experiences of a band of spiritualists who, fifteen years ago, ran across the same ledges on which the present strikes have been made. They attempted to mine the quartz they found on the surface, but gave up their attempts in a short time, declaring on their return here they had been warned by "spirits" to leave the mineral unexploited.

The assays show this surface ore to range in value from \$6 to \$7,000 to the ton. From ten different assays an average value of \$1,500 a ton was found. The ore is in porphyry dikes from 300 to 600 feet in width and extending for miles across the Mexican border into Lower California.

O. J. Kennedy, well known in Colorado and Nevada as a mining engineer, formerly secretary of the Washington State Mining Bureau and locator of the Anchora Leland mine at Cripple Creek, declared that he was certain the new camp will become a greater producer than either Cripple Creek or Goldfield.

STOP THE STRENUOUS LIFE.

Weakens the Tissues and Lessens Organic Vitality.

The stress and strain of the strenuous life in both city and country tends towards stomach troubles. Five people suffer today where one did ten years ago with sick headache, dizziness, flatulence, distress after eating, specks before the eyes, bloating, nervousness, sleeplessness and the many other symptoms of indigestion.

All who are suffering with stomach troubles, and that means at least two out of three in Gainesville and other towns, should use Mi-o-na stomach tablets. Nothing else is as safe, yet effective; nothing else can be so thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na.

So reliable is Mi-o-na in its curative action that J. W. McCollum & Co., with every 50-cent box they sell, give a guarantee to refund the money unless the remedy cures.

Alleged Murderer Captured.

Thomasville, Ga., March 17.—Ed Williams, a negro who is wanted in Taylor county for the murder of a white man a week ago, was caught in this city by the police. He was taken back by the sheriff of that county and will be tried at once. Fear of lynching will compel the authorities to take the prisoner to Perry for safe keeping. There was a reward for his capture of \$300.

Strangled While Eating Dinner.

Jacksonville, Ill., March 17.—Felix G. Penn, a patient at Central hospital for the insane here, died from food strangulation while eating his dinner. His home is in Moweaqua, Ill., and he had been at the institution since May, 1906. A coroner's inquest was held which exonerated the hospital staff from blame. He was seventy-two years of age.

Wears Moustache at Nine.

London, March 17.—The most precocious boy in Europe is Joseph Williams, who at nine years old has a moustache and a deep bass voice. Joseph, who is the son of a London house painter, is being trained by the organist of his parish to sing in public as a "freak" in vaudeville.

Bunch moved to waive the rules and place this ordinance on its second reading. Roll was called, and every member voted aye, and the ordinance was read by sections and adopted.

Alderman Cannon moved that the ordinance be engrossed. Carried.

Ordinance No. 152, being an ordinance to amend Section 7 of Ordinance No. 142, regulating plumbing, was read the first time, and upon motion of Alderman Bunch adopted. Alderman Bunch moved that the rules be waived, and ordinance placed upon its second reading. Roll was called, every member voting aye, and motion was carried. The ordinance was then placed on its second reading by sections, each section being adopted, after which the ordinance was adopted as a whole on second reading, by motion of Alderman Cannon. Alderman Vidal moved that the ordinance be engrossed, which motion was carried.

Alderman Bunch moved to adjourn until Wednesday evening, March 18, which motion was carried.

OFF TO THE MINES.

Deputy Sheriff Walker Took Two Offenders to Rawls & Co. Tuesday.

Deputy Sheriff I. C. Walker took two prisoners, S. Jones and Fred Hall, both colored, to Rawls & Co., the lessees, Ocala, Tuesday.

Jones, a young colored man, was convicted in Justice Everett's court at Wilcox upon a charge of carrying concealed weapons, and got \$100 fine or three months.

Hall, as was noted in The Sun of Tuesday, was convicted before Justice Caswell at Alachua for petit larceny, and he must serve six months, in default of a fine of \$100.

Death of Mrs. Strobe.

Mrs. Lawrence Strobe died Sunday afternoon at her home about eight miles west of Gainesville of pneumonia.

Deceased had many friends throughout the section in which she resided, all of whom regretted very much her demise.

The funeral was held Monday afternoon, the interment being in Jonesville cemetery.

A sad feature of the event was the fact that at the time of her death and funeral her husband was also very low, and is yet quite ill.

Alice Roosevelt's Wedding

Was something to be recorded in the annals of history. Herbine has been acknowledged the greatest of liver regulators. A positive cure for bilious headaches, constipation, chills and fever, and all liver complaints. J. C. Smith, Little Rock, Ark., writes: "Herbine is the greatest liver medicine known. Have used it for years. It does the work." Sold by W. M. Johnson.

Marriage at Trenton.

Information comes to this city of the marriage of Edward Everett and Miss Horn, which occurred at the home of the bride's parents at Trenton on Sunday afternoon.

Mr. Everett is a young man well known and popular in his section, while the bride is a charming young lady with many friends.

For Diseases of the Skin.

Nearly all diseases of the skin such as eczema, tetter, salt rheum and barbers' itch, are characterized by an intense itching and smarting, which often makes life a burden and disturbs sleep and rest. Quick relief may be had by applying Chamberlain's Salve. It allays the itching and smarting almost instantly. Many cases have been cured by its use. For sale by all druggists.

UNIVERSITY NOTES

An experiment in cattle-feeding that will probably be of great interest to the stockmen of the State is now being carried on at the Station. Four sets of four steers each are being fed on different kinds of rations, and the results studied. These sets are as nearly uniform as possible, the total weight of the heaviest four differing from the weight of the lightest four by less than one hundred pounds. The first set are being fed on cottonseed meal and hulls; the second on crabgrass, corn, and cottonseed meal; the third on velvet beans, crabgrass and corn; and the fourth set on cottonseed meal, corn, and silage. It was sought to find out the value of one pound of protein of velvet beans as compared with cottonseed meal as a producer of tissue and muscle, and also to find out the relative values of silage and crabgrass hay as fat producers.

Present indications go to prove that it is twice as expensive to produce a pound of beef from cottonseed meal and hulls as it is to produce a pound from velvet beans, crabgrass, and corn. In other words it is most economical for cattlemen to use a "balanced ration."

People interested in this experiment are invited to visit the Station. Each pen is labeled to show what food each animal receives. The food supplied is weighed daily, and the steers are weighed weekly.

Mr. Winters, of the Station, is visiting Orlando, DeLand, and Sanford, at which places he is carrying on experiments in celery-raising.

Dr. Stead will on next Sunday preach the Baccalaureate Sermon of the Wauchula High School commencement.

So much interest was manifested in the game of baseball between the Faculty and the Experiment Station staff that it is probable a second game will be played shortly.

Do not forget the "Open House" at the University next Friday night. Conveyances will be found at the square to take visitors out to the grounds.

This is Worth Remembering.

Whenever you have a cough or cold, just remember that Foley's Honey and Tar will cure it. Do not risk your health by taking any but the genuine. It is in a yellow package. J. W. McCollum & Co.

In the Mayor's Court.

There were only two cases in the Mayor's court Tuesday morning. Joe Hudson, white, for disorderly conduct, was fined \$10 and costs, and James Carolina, colored, charged with drunkenness, was discharged.

The Swine and the Flower

Oh me! I saw a huge and loathsome sty, Whence a drove of wallowing swine were barred, Whose banquet shocked the nostril and the eye; Then spoke a voice, "Behold the source of lard!" I fled, and saw a field that seemed at first One glistening mass of roses pure and white, With dewy buds 'mid dark green foliage nursed; And, as I lingered o'er the lovely sight, The summer breeze, that cooled that Southern scene, Whispered, "Behold the source of COTTOLINE!"

The days of the little Presidential boom are numbered.

Senator Foraker says he is not cast down. No; thrown down.

Business appears to be reviving everywhere except in Congress.

"Uncle Joe" Cannon loves the idea of tariff revision with a deadly hatred.

The Uncle Joe Cannon Presidential boom must be using a smokeless powder.

Senator Bailey regards Roosevelt as a pretty good tonic but a pretty queer mixture.

The poets are doing their best to induce the Weather Bureau to believe that spring has come.

Certain naval officers who declare that the navy has serious defects must have read the magazines.

Even with "In God We Trust" restored to our coins, it will still be necessary to hustle for a living.

Our navy is being criticized, but as long as our warships are able to keep the armor line above the water and the guns working, it will be all right, won't it?

For a malefactor of great wealth Mr. Harriman is doing pretty well, thank you. He has just bought the stock of the Georgia Central railroad for \$3,000,000.

Governor John Johnson of Minnesota says he will not accept the Democratic nomination for President. No, he certainly will not. William J. accepted it first.

While he may not be responsible for the late financial "panic," Roosevelt is undoubtedly the author of the political panic now disturbing some of the G. O. P. brethren.

Sir Dyce Duckworth declares that gouty people are not disposed to consumption. But that is certainly giving suffering humanity the choice of two mighty serious evils.

Mrs. Hetty Green's pronounced view against American heiresses marrying foreign noblemen undoubtedly would start a Hetty Green Presidential boom were such things permitted in this country.

Beginning May 1st all saloons in Lincoln, Neb., will be open only in daylight from 7 a. m. to 7 p. m. This will compel the man who wants "to keep his birthday" to begin early in the morning.

According to the ever-truthful Houston Post, a woman of that city would be pleased "to hear her husband praise the beauty and talent of his lady friends." Poor thing! Evidently she is hopelessly deaf!

If William D. Haywood, ex-secretary of the miners' association, is permitted to talk long enough, he may convince the country that the President knew what he was about when he classed him as an undesirable citizen.

"REASONABLE PROFIT."

Oh Dear! Ohio Republicans have returned to their tariff vomit. This shows that the Roosevelt-Taft combine fear to fight the standpatters. The tariff plank in the platform just adopted is evidently a makeshift for that end, for the question involved is not tariff reform but how much "reasonable profit" the trusts are to be protected in securing and then making the schedules to match. That plank should suit any trust magnate, and the smile on the face of the protected monopolists of the Protective Tariff League must be broad enough to cover their capacious faces, for if a Republican Congress is elected the trusts will evidently have the fixing of the "reasonable profit" and we all know how unreasonable they can be. Such is the promise of Republican tariff reform.

A SHORTSIGHTED MISTAKE.

How shortsighted and selfish our Republican protectionist statesmen have been! They have thrown away the trade of half the continent by making the tariff tax so high that Canada can only trade with us to a limited extent, and also by refusing to moderate this protectionism by reciprocity. To protect herself from our trust products, Canada, very naturally, was compelled to raise a similar tariff wall. The result is that the people of both countries are plundered by the high price of products that under a tariff for revenue they could buy much cheaper.

Hon. William L. Douglas of Massachusetts in a late speech declared that, "the blighting tariff tax on raw materials has so checked the industrial growth of New England that great numbers of men are forced out of employment and compelled to emigrate." Governor Douglas is an authority on economic conditions, and the Republican standpatters have found no voice to reply to his speeches for tariff reform.

The Independence League will not support Mr. Roosevelt, Mr. Bryan, or Governor Johnson, says The New York American, but will nominate a candidate for President. This shows that Mr. Hearst has entirely cut loose from his former affiliations with the Democrats or Republicans.

According to The Houston Post, a Dallas man has come home late seventy-eight nights in succession with a different explanation each time that was perfectly satisfactory to his wife. A man like that really ought to be in the diplomatic service of his country.

Andrew Carnegie declares the Al-drich currency bill is a mere makeshift and approves the Fowler bill. Emergency currency, which the Republicans were so anxious for when their panic scared them out of their boots, is evidently gone glimmering.

Diamonds won't pay no tariff tax, probably because, according to Republican theory, those precious stones are a necessity for the wealthy few. It will hardly help the many to know that diamonds are to be cheaper in consequence of the panic.

"What has become of the old-fashioned boy who used to offer to fight a smaller boy on his knees and with one hand tied behind him?" asks The Atchison Globe. Why, we understand he is married, and gets all the fighting he wants.

"At last," says The St. Louis Times, "it has filtered through the country that St. Louis has the clearest drinking water of any large city in America." But that isn't what "made St. Louis famous," is it?

THE MAN AND HIS JOB

By Herbert J. Hapgood.

Some time ago in the coal mines of Pennsylvania, an incident occurred which not only illustrates the insuperability of Irish wit, but renders also an indisputable principle in the attainment of success. Casey had been working at the bottom of a five-hundred foot shaft, when a tremendous explosion brought him flying to the top in a cloud of dust and debris. The engineers crowded around him to ascertain the cause of the explosion, but Casey's only explanation was: "You can't keep a good man down!"

And the biographies of many of our great men bristle with examples of genius that burst the bounds and bonds of seeming limitation. At the age of thirty Owen Kildare could neither read nor write, but nine years later finds him the author of several good books.

Vice-President Henry Wilson went to school only one month in every year, and at the end of eleven years of hard work, received as a recompense for his labors a yoke of oxen and six sheep, which brought him only eighty-four dollars. Before eight years had passed he made his famous anti-slavery speech in the Massachusetts Legislature, and four years later he found himself in Congress, to be followed by his being elected Vice-President.

George W. Child, formerly at the head of The Philadelphia Ledger, started to work for two dollars per week.

Eddie Foy began life as a newsboy. From the Greek Creen down to our present day conquerors of success are thousands of proofs "that you can't keep a good man down!"

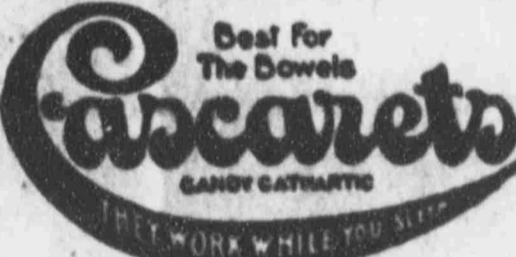

Senator Foraker has introduced a bill authorizing the re-enlistment of the negro soldiers, who were discharged without honor by President Roosevelt. The colored troops are said to have saved the day at San Juan hill when the President and his Rough Riders were in trouble, but when it comes to politics they are given the cold shoulder by their Republican masters.

"The Washington Herald speaks of the umpire as if he were the goose-egg factory," notes The Nashville American. Well, certainly, goose-eggs and lemons are about the only thing he has handed the Washington teams of the past; but perhaps we may take a more cheerful view of things, so far as the coming season is concerned.

Happy thought—one year from now we will be pretty well over the effects of inauguration day.

SHORT STATE ITEMS

Fifty acres of cucumbers have been planted by truckers north of Pensacola as an experiment.

The fifth annual session of the Southfield Bible Conference will be held at Crescent City from March 27th to April 5th.

C. F. Howe of Orlando was convicted of selling whiskey in a dry county and sentenced to one year at hard labor on the Orange county farm.

St. Augustine is soon to build a fine new school building near the city gates, and in view of the terrible disaster at the Collingwood school in Ohio, this school building will be built strictly fire-proof.

Tampa has a new scheme to rid the city of mosquitoes. They propose to place minnows in all cisterns throughout the city and let the little fish devour the wiggletails, from whence comes the mosquito.

Four blind tigers have been caught in Palatka recently. They were all captured without difficulty. Sheriff Hower is hot after them and it is thought that the "tigers" will remain low for a long time to come.

The Tampa News says that three or four hundred carloads of cabbage are rotting in the fields in South Florida because they will not pay the cost of transportation, and yet in the crowded cities men, women and children are beginning to feel the pangs of hunger. Certainly things are out of joint.—Ocala Banner.

A candidate for a county office in Putnam county, desirous of presenting solid, commercial reasons to the voters for their support, advertises that he will give \$25 to each of six certain proposed public utilities, if elected, including a new courthouse, a bridge across the river at Palatka, and certain roads. Perhaps the voters will see a good bargain in this offer.—Times-Union.

A mass meeting of the citizens of Ocala held Monday night passed resolutions deploring recent disturbances of the peace, and demanding that the city council at once remove the present police force, appointing a new one. The room was filled to its full capacity with the best representative citizens, The Banner says. The recent alleged assault upon a citizen by a policeman seems to have aroused considerable indignation in Ocala. To purge the police force is the only remedy where policemen themselves break the law.—Times-Union.

B. K. Richardson of Nairo sustained a loss of more than \$20,000 Saturday night about midnight by the destruction by fire of his large saw mill, including a planing mill and dry kiln, and it was only by seeming fortune out of misfortune that his house and lumber yard were not destroyed. There was no means for fighting the fire, and necessarily it was allowed to run its course, but, luckily, the wind was blowing in such a direction as to drive the flames from the residence, and the yards where the greatest part of the lumber was stored, which otherwise would also have been destroyed.

The West Palm Beach Tropical Sun says: "There is no land on earth where intensive farming is more profitable than on the East Coast of Florida. The area that one man can properly care for and supervise to its fullest advantage must, of necessity, be small. Hence it is that intensive farming requires a small farm, and by a small farm we mean ten to twenty acres. With intensive farming irrigation and diversity of crops go hand in hand, and the small farmer of the East Coast of Florida will so regulate and diversify his crops and plan his output that there will not be a month in the year without its special income. The small farm intensively cultivated with fruits, vegetables and berries is the ideal plan for the farmer, and is the plan now being adopted by the progressive men in this resourceful region."

HIGH SPRINGS MINSTRELS.

Appeared to a Good House in Newberry, and Were Well Received.

Newberry, March 17.—The High Springs Minstrel Troupe, under the able management of Wm. Davidson, showed to a large and appreciative audience in the Ruff Opera House Saturday evening. The minstrel was a grand success from the rising of the curtain on the opening chorus, "San Antonio," to the drop of the curtain on the last of the funny features of the grand specialty, "The Five-Cent Barber Shop."

The features of the evening were the comical black faces "Sambo," "Pompey," "Bones" and "Gus," who kept the audience convulsed with laughter by their ludicrous songs and jokes. The white faces received much applause for the sweet songs rendered with much effect.

Willie Hall, the black-faced comedian, was the recipient of much applause in his specialty and brilliant parody on "Teddy and the 'Coon, Coon, Coon.'" N. Davidson and R. Witherspoon were others of the comedians that the audience appreciated.

The fourteen members of the troupe expressed themselves as being well pleased with our town and the nice manner in which they were treated during their stay in the city.

\$400,000 Damage by Fire.

Lyons, France, March 17.—The fire which broke out Sunday night in a big biscuit factory here and which spread over a block of buildings covering 25 acres, was gotten under control when \$400,000 damage had been done.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

GREAT VAN AMBURG SHOWS.

This Immense Attraction Will Appear in Gainesville March 19.

The splendid reputation of the Great Van Amburg Shows is so firmly established that none will doubt the genuineness of the promises made, and no one will be disappointed. This year the show has been enlarged so as to rank with any tented organization on the road. Thousands of dollars have been spent in improving every department.

It costs about \$2,500 a day to run such a big circus. There are 570 people with the show, besides \$3 advance men, contracting agents and bill posters with the advertising cars.

The Van Amburg Circus carries 300 horses and 30 ponies, the lot valued at \$50,000. The big and little elephants represent a fortune in themselves.

With the monster show is its own minister, surgeon, barbers, blacksmiths, electricians and others.

No one who is not in touch with the great show can form any idea of the immensity of it. It is a small city in itself, constantly on the move, but with all kinds of mechanical provisions for its running.

One thousand pounds of meat are consumed daily in its circus dining-halls, to say nothing of barrels of potatoes and similar supplies. All this was purchased here—two days' supplies for the 570 people, horses and the animals, kitchen and dining-halls, models of neatness both. In the culinary department are employed fifteen cooks and thirty-six waiters, besides assistant cooks, meat cutters and pastry cooks.

A circus is a splendid object lesson in system-perfect system.

This is seen in the unloading of the cars and in every detail of the work. Every man is held responsible for his particular duty.

Mr. Peter Van Amburg, who accompanies the circus, has 26 assistants on his staff. His "office on wheels" is complete, being provided with all conveniences, electric lights, etc.

The laundry bill of the Van Amburg Circus alone is \$250 per week.

The money carried out of town by a circus is the extra money brought by excursionists who come to the show. The money received from town people is more than offset by the sums paid out here for supplies and other needed expenses.

This big attraction will appear in Gainesville Thursday, March 19th, afternoon and night.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Why not let it help you? J. W. McCollum & Co.

A BLOODLESS CONFLICT.

German Students Bar Swords and Fight Duel with Canes.

Lissa, Posen, March 17.—Fifteen minutes' slashing with a cane was the limit of endurance of one of the antagonists in the newest form of students' duel which has just occurred outside this city, where it has been decided among the students of the technical high school to dispense in future with deadly weapons for the decision of affairs of honor.

The students met at a chosen spot, where the seconds marked out a ring. The antagonists then stripped to the waist, each was handed a cane of equal length, and they then stepped into the ring. At the word of command of the director of the combat, they began slashing furiously, until finally, after a quarter of an hour, one of them overstepped the limits of the ring. He was thereupon declared to be the loser, but to the on-lookers it was difficult to decide which of the opponents had suffered most, as their ribs, arms and backs presented the appearance of having been flayed. In university circles, where swords have hitherto been the only recognized weapons for students' duels, opinion is greatly exercised over the attempted innovation.

POLICE WERE ON HAND.

No Arrests Made, but Their Presence Was Disconcerting.

Chicago, March 17.—Emma Goldman, the anarchistic lecturer, attended a meeting of the Anthropological society Sunday to exchange greetings with some of her old friends.

Before the chief speaker finished talking, thirty-five or forty policemen, some in plain clothes, stalked in or remained just outside the hall.

The policemen did not say a word to Emma Goldman or any one else, but their presence was disconcerting, to say the least. Miss Goldman, after quietly listening to an address opposing vaccination, left before the meeting adjourned. Police reserves were still coming up half an hour after she had departed.

General Frank Dead.

Washington, March 17.—Brigadier General Royal Thaxter Frank, U. S. A., retired, died at his residence here Saturday in his seventy-sixth year. He was graduated from the Military academy in the class of '58, and fought throughout the civil war. General Frank was brevetted lieutenant colonel for gallantry in battle, from which he rose after the war to the rank of brigadier general in 1899, retiring a few months afterward. He was born in Gray, Me.

And remember the next time you suffer from pain—caused by damp weather—when your head nearly bursts from neuralgia—try Ballard's Snow Liniment. It will cure you. A prominent business man of Hempstead, Texas, writes: "I have used your liniment. Previous to using it I was a great sufferer from rheumatism and neuralgia. I am pleased to say that now I am free from these complaints. I am sure I owe this to your liniment." Sold by W. M. Johnson.

Much Surprised Undertaker.

Lynn, March 17.—There was a very much surprised undertaker in this city Saturday night. He came to the residence of Mrs. William Hitchcock, on Market square, to prepare the body of Mrs. Francis Hamilton, of Mills, for removal to her home city for interment. He was shocked when the supposed corpse met him at the door in the best of health. The mistake was due to a misinterpretation of a telephone message.

Georgia Debaters Chosen.

Athens, Ga., March 17.—The debaters who are to represent the University of Georgia in the annual debate with North Carolina have been chosen. They are Messrs. S. O. Smith, of Gainesville, a member of the senior class, and Y. B. Smith, of Atlanta, a member of the junior class. The debate will be held in this city in April, and the railroad question will be under debate.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashlet street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

TRAGEDY AT MARION, S. C.

Young Man Shoots Rival and Then Blows Out Own Brains.

Columbia, S. C., March 16.—At Marion Friday Luther Hewitt, 24 years old, shot Arch Stephens twice and then blew out his own brains as the result of a misunderstanding concerning the latter's attentions to a young lady with whom Hewitt was said to have been in love. Stephens may recover.

Stephens escorted the young lady home last evening and Hewitt is said to have brooded over the matter until he became enraged, and the shooting was the result. After shooting Stephens in the neck and in the back, Hewitt shot himself in the temple. Walking about 25 yards, Hewitt shot himself a second time and dropped dead. Both men were employed at the Marion Manufacturing company's mill.

Pof. H. A. Howell of Havana, Cuba, Recommends Chamberlain's Cough Cure.

"As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Howell's American School, Havana, Cuba. "On the night of February 3rd our baby was taken sick with a very severe cold; the next day was worse and the following night his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was difficult. I did not think he would live until morning. At last I thought of my mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief, and now, three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only, saved the life of our dear little boy." For sale by all druggists.

Pays Mrs. MacKay Tribute.

New York, March 13.—Tribute to the business ability and useful activity in public affairs of Mrs. Clarence H. Mackay has been paid by the board of trade of Roslyn, L. I., where she resides, in unanimously electing her to membership in that body. Mrs. Mackay three years ago ran for school trustee against Dr. Lewis and won, and since that time has shown great interest in the village, its schools and other institutions.

GOV. JOHNSON'S CAMPAIGN.

Headquarters in Presidential Race Will Probably Be in East.

St. Paul, Minn., March 16.—Governor Johnson when questioned by a reporter admitted that what might be called headquarters for his possible entry into the presidential race, would be opened in the east. He said that the present month would show whether he would enter the race. Frank A. Day, the governor's private secretary, is now in the east looking after the governor's political matters and will attend to the details of opening headquarters in Chicago, New York and Washington.

A former newspaper editor of St. Paul is known to have gone to Washington with letters of introduction from Governor Johnson to men in Washington who might be willing to aid in the projected campaign.

SHOT HIS LANDLADY.

Bartender Then Turned Weapon on Self, Later Dying in Hospital.

Chicago, March 16.—Charles Wiedman shot himself Friday night after an attempt to murder Mrs. Minnie Heiss in the hallway of her residence. He was taken to a hospital where he died shortly afterward. Mrs. Heiss probably will die.

Wiedman, who was a bartender, boarded for a long time at the residence of Mrs. Heiss, who is a widow with two children. The children said their mother and Wiedman were on excellent terms and Wiedman was sign no motive for the shooting.

The police investigation indicates that Wiedman was a suitor for the hand of Mrs. Heiss and she had persistently refused him. He was fifty-eight years old.

Actress Eames Sustains Injury.

New York, March 16.—Mme. Emma Eames was unable to appear in "A Ida" Friday night at the Metropolitan opera house on account of an injury to her knee. Mme. Rappold took her place. The singer injured her knee in the death scene of "Il Trovatore" at the Saturday matinee. On Monday night, when she repeated the scene and fell to her knees, she aggravated the bruise.

Fire in Tunnel.

New York, March 16.—A small fire in the unfinished section of the McAdoo tunnel near the intersection of Twenty-third street and Sixth avenue Saturday created considerable excitement for a time among the two-score workmen employed in the underground tube. All the men escaped in safety, however, and the flames were extinguished.

To Test State Law.

Montgomery, Ala., March 17.—President R. J. Chambers, of the local Southern League team, announces that baseball will be played next Sunday between two teams made up by division of the locals. Charge will be made. This is understood to be a move in the interest of Sunday baseball and a feeler to see if the state law will be enforced against the sport.

Railroad Bridge Burned.

El Paso, Tex., March 17.—The Atchison, Topeka and Santa Fe railroad bridge across a ravine near El Paso caught fire from an unknown source Sunday night and was destroyed by the flames. Firemen were sent to the burning bridge from El Paso but the flames were beyond control. Traffic will be practically tied up until the bridge is rebuilt.

Wardens Take Charge of Thousands of Pounds of Plover and Grouse.

New York, March 16.—Four New Jersey wardens seized Friday in the cold storage vaults of the Merchants' Refrigerating company, Jersey City, thousands of pounds of plover and grouse.

The wardens came upon 265 boxes of birds in the warehouse. They took photographs of the birds for future evidence and sealed the boxes.

The fines for holding over game in violation of the law is \$20 per bird. If the three New York firms whose names were on the boxes are found guilty and fined the limit, their penalties could be run up to \$350,000.

Avalanche Kills 18 Persons.

Tomsk, Siberia, March 16.—Eighteen persons have been killed by an avalanche in the Duhkarminsk District. The mass of earth and snow rolling down the side of the mountain overwhelmed and carried away two houses before the people inside could escape. Two women survived the experience, but they are badly injured.

Unequaled as a Cure for Croup.

"Besides being an excellent remedy for colds and throat troubles, Chamberlain's Cough Remedy is unequaled as a cure for croup," says Harry Wilson of Waynetown, Ind. When given as soon as the croup cough appears, this remedy will prevent the attack. It is used successfully in many thousands of homes. For sale by all druggists.

WILL GO TO GROVES.

M. B. Saunders Will Give Friends Excursion to Ward's Grove Thursday.

As was announced in The Sun of Sunday, M. B. Saunders, always awake to the pleasure and entertainment of his friends, will give an excursion over the Tampa and Jacksonville railroad to the famous orange grove of M. J. Ward, Tacoma.

Mr. Saunders is continually looking to the advancement of this section, not only from a commercial but a horticultural and agricultural standpoint, and will take on this excursion three prospective buyers of groves who may locate here. While the excursion is of a private nature, which makes it all the more pleasant, those who desire may go on this excursion by paying 75 cents for the round trip. The party will be entertained at the grove by the owner, M. J. Ward, and a pleasant day is assured.

Train will leave the T. & J. depot at 9:30 a. m., returning at 4:30.

NO BIBLE CONFERENCE.

That is the Way It Looks Now, as No Encouragement Has Been Given.

The people of Gainesville will regret very much to learn that the probability is there will be no Bible Conference this year, as it has been intimated that certain conditions have arisen over which the committee has no control, which will make the conference impracticable this year.

Another inconvenient feature which will work against the holding of this conference, it is said, is the lateness of the season. Heretofore the annual conference has been held in February, prior to the Chautauqua; but this season the sessions were reversed, and it is feared that at this late season neither the necessary attractions or the necessary funds could be secured to make the venture a success.

Hence there will be no Bible Conference.

An Enjoyable Straw-Ride.

A few of the University boys and their young lady friends participated in a delightful straw-ride to Newnan's Lake Monday evening, and, the night being beautiful, a full moon, it is needless to add that the trip was a most enjoyable one.

Arriving at the lake a delightful luncheon, prepared by the young ladies, was served, and after a pleasant hour spent on the romantic shores of that beautiful sheet of water, the party started for home, arriving here about 9 o'clock.

The party was chaperoned by Mrs. H. H. McCreary, to whom the young folks are greatly indebted. They all voted Mrs. McCreary a most charming chaperon.

Mr. and Mrs. F. D. Warner and C. A. Colclough left yesterday for Jacksonville. The gentlemen, who are well-known and successful growers, the former being president of the Florida Fruit and Vegetable Shippers' Protective Association, will appear, with a committee from the association, before the Inter-state Commerce Commission in an adjourned session, relative to securing more adequate rates for Florida products, in relation to products from other sections. A full history of the unjust discrimination on the part of transportation lines has already been published in The Sun.

Mrs. Alex. Wittstock and daughter, Miss Cora, have returned from Cooter Pond, where they have been on a brief visit to friends and relatives. While there they attended the closing exercises of the Cooter Pond school, under the direction of Miss Donia Ford, which occurred, Friday the 13th. The pupils and their friends enjoyed a fine picnic which was largely attended. The patrons and the pupils of Cooter Pond school hope to have Miss Ford back another term.

Captain A. Paul, special agent of the United States land office, has returned from an official visit to points in West Florida. Captain Paul states that the sections of the country visited are prosperous, and that the farmers are all busy making their stands, with a view and anticipation of big crops. The naval stores plants and saw mills are also busy, and altogether there is an air of prosperity.

—T. W. SHANDS, President—

Geo. L. Taylor of Palmer, superintendent of the Gainesville Peach Orchard Company, was a business visitor to this city yesterday. Mr. Taylor is one of the most progressive citizens of the county, being at various times connected with the State Fair, and is now commissioner from Alachua county to the Florida Mid-Winter Exposition at Jacksonville. He originated the idea of the horse show, which proved so popular at this resort, and brought so much glory and recognition for the Standard Stock Farm and Alachua county, as was noted in The Times-Union of Sunday and The Sun of Tuesday morning. But Mr. Taylor is a modest man, and does not want to take the credit, notwithstanding that the exposition management and his friends insist that "it was he."
